RECONSTRUCTION ASSISTED BY 3D MODELING

Surgeon

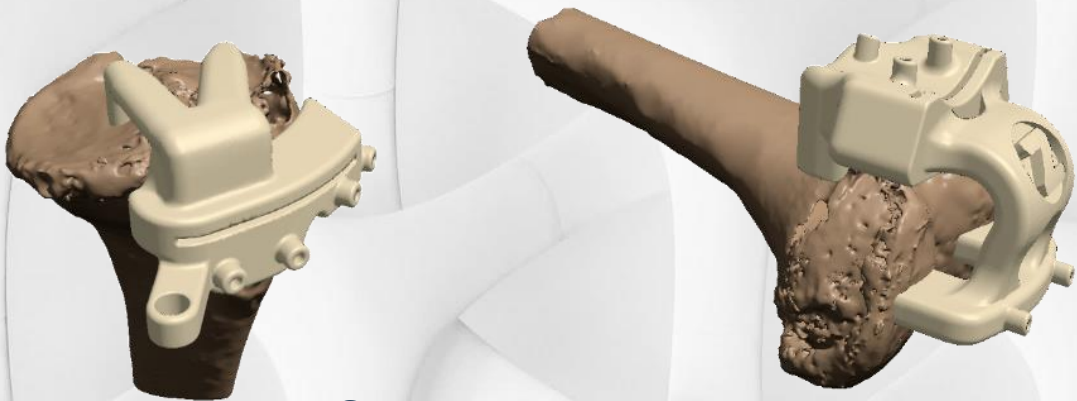

Dr KHALIL HABOUBI

Hospital

Mohamed-Kassab Institute of Orthopedics

PLANNING

The delineation was performed by Dr KHALIL HABOUBI, on the CT-scan and MRI was not needed.

SURGERY

Made-to-measure guides have proven themselves: their precision and quality are based on the work of engineers. They allow the implants to be placed as planned during the programming and this is the essential prerequisite for the use of custom-made prostheses.
